

BUILT LANDS CAPES

SEMINAR WEEK / SPRING SEMESTER
EL ESCORIAL CORDOBA GRANADA / 12-18.03.2016

GRANADA

PROBABLY THE BEST CONDITION OF ROMAN, MUSLIM, REINASSANCE AND NEOCLASSICAL ARCHITECTURE IN SPAIN IS THAT IT ESSENTIALLY REMAINS CONTEMPORARY. FROM RAFAEL MONEO TO STAN ALLEN, THE READINGS AND EXPLORATIONS ON THE MOSQUE-CATHEDRAL IN CORDOBA, THE ALHAMBRA IN GRANADA AND EL ESCORIAL IN MADRID AS INSTRUMENTAL EXAMPLES FOR MODERN ARCHITECTURE REMAIN CONSTANT. IN THIS TRIP WE WILL VISIT THESE CITIES AND THEIR UNIQUE COMBINATION OF ARCHITECTURES, ENGAGING ON AN TRANSHISTORICAL DISCUSSION ON THE CONSTRUCTION OF LANDSCAPES AND THE RELATIONSHIP BETWEEN TERRITORY, SCALE AND ARCHITECTURE.
