Desert Cities/New Towns

14.03-18.03.2016, ETHZ, ONA.

“What do you think the New Towns have been for since 1976? Sixth of October has a humongous industrial area. It was designed in 1981 for a million people, and the idea was the workers would live out there in government-built housing and go to the factories. It never worked. This thinking has been on the table for 30 years. Maybe it’s about time to think otherwise.” David Sims, Interview in Cairo’s Informal Areas. Between Urban Challenges and Hidden Potentials Facts.
