### **INTERNATIONAL EXCHANGE ETH ZÜRICH – TU DELFT**

The Delft University of Technology is internationally renowned for its education and research. This exchange is organized as a newly formed cooperation between the ARCHITEKTURA and our sister association STYLOS in Delft. The goal is to get an understanding of different educational systems, architecture teachings and student lifestyles.

Every participant gets linked to an architecture student of TU Delft and stays for a week at his/her place in a typical Dutch student house - and later in the semester welcomes the exchange partner here in Zurich for the second part of this international experience.

In Delft the programme will be focused on famous Dutch architecture from early modernist social housing till today's mega designs by MVRDV. Included are daytrips to Amsterdam, Rotterdam, The Hague and Utrecht/Antwerp as well as guided tours through Delft and lectures in the faculty.

## **18.3. - 25.3.**

10 - 20 participants

cost level: B

the trip via train/bus/  
plane is self organized

(B calculates maximum costs  
being a flight with Swiss Air)
