Conjunto Pedregulho by Affonso Eduardo Reidy

SEMINAR WEEK

19. - 25.03.2017

ETH Zürich
MARC ANGÉLIL

Team
Ciro Miguel / ciromiguel@arch.ethz.ch
Guillermo Dürig
Marcin Ganczarski

A city is the more attractive, the more strata it possesses, the more colorful its range of contrasts - as is the case of Rio - Stefan Zweig, 1936

A trip to explore the radical urban experiments of modern and contemporary architecture in Rio.
By drifting through the city, we will experience the culture of transparency, formal diversity and spatial generosity that was forged in that exuberant landscape. We will visit projects by Oscar Niemeyer, Affonso Eduardo Reidy, Lucio Costa, Roberto Burle-Marx, among others.

Number of students: max 25
Price Range: F
