

BUILDING DOCUMENTATION

GIOVANNI MICHELUCCI

Research Week Octobre 22nd - 26th 2018

With our basis in Florence we will form groups of three that will each during the day individually spread all over Tuscany to analyse and document one building by Giovanni Michelucci. We will use the Seminary Week as an intensive workshop, to collaborately compile a thorough documentation of the most striking buildings of Micheluccis oeuvre. Participants of the workshop are asked to rethink the concept of the Seminary Week and be willing to use it as a week of intensive research on the built testimony of one of the most remarkable italian architects of the whole 20th century.

By the end of the week, each group will be an expert on one building, and organise a guided tour for the other students.

The individual research workshop will be framed by colloquia with specialists to discuss each groups findings of the day together and a visit to the Michelucci archive in Florence.

with Christian Kerez, Joni Kaçani, Gianna Ledermann, Federico Rossi

Florence with daily trips, min. 15, max. 21 students, cost frame C (incl. transportation, accommodation, rental car, 1 dinner, entrances)
