

INVESTIGATION #1
LIGHTNESS

FIBERGLASS

Studio BRUTHER

21-26 October 2019

Category C

Incl. transport, accomodation, experts & materials

Max. 12 Participants

During one week, we will stay together by the water at the lakeshore near Constance. In a workshop setting, we will investigate lightness through the medium of fiberglass alongside experts from Compositeworx. Over the seminar week, we will meet with designers, artists and photographers to discuss the results that will lead up to a publication and an exhibition.
